- ☐ **C.** Guide the Product Owner to collaborate with senior Developers to organize the Product Backlog, ensuring minimal overlap during the Sprint.
- ☐ **D.** Teach them on their duty to collaborate with other teams, ensuring they create an integrated Increment encompassing the contributions from all teams.

Question 12

Choose 1 answer

True or False: It's mandatory for the Product Owner to describe every single Product Backlog item and then provide them to the Scrum Team.

- ☐ **A.** TRUE
- ☐ **B.** FALSE

Question 13

Choose 1 answer

A new Product Owner joins a Scrum Team that has been working on a project. While familiarizing herself with Scrum, she comes across information suggesting that the Product Backlog is mainly a list of user-centric features. She is wondering where to place requirements like security protocols, technical debt, UI/UX improvements, API integrations, and bug resolutions. Are all these items suitable for the Product Backlog?
(choose the best answer)

- ☐ **A.** Absolutely, every single one of them can be included in the Product Backlog. It acts as the comprehensive list of all tasks related to the product.
- ☐ **B.** No, the Product Backlog primarily caters to the needs of the user and stakeholders. Other technical aspects should be managed independently by the Developers, as they don't fall under the purview of the Product Owner.
- ☐ **C.** No, the Product Backlog only contains user stories. The remaining work must be listed separately.

Question 14

Choose 2 answers

What are effective strategies for the Product Owner to ensure efficiency while managing and refining the Product Backlog?
(choose the best two answers)

- ☐ **A.** Detailing Product Backlog items more when there's a high likelihood they'll be selected in upcoming Sprints.
- ☐ **B.** Discarding obsolete Product Backlog items that haven't been considered for several Sprints.
- ☐ **C.** Keeping new, not-yet-analyzed Product Backlog items in a different backlog until they're fully fleshed out.
- ☐ **D.** Delegating the accountability of the Product Backlog to another individual.

Question 15

Choose 1 answer

True or False: The primary goal of a Sprint Review is to gather insights and comments from stakeholders.

- ☐ **A.** TRUE
- ☐ **B.** FALSE

Question 16

Choose 1 answer

What is the main advantage of having a Sprint Goal?
(choose the best answer)

- ☐ **A.** The Sprint Goal helps in determining the technical tasks for the Sprint.
- ☐ **B.** The Sprint Goal helps in segregating high and low priority items in the Sprint.
- ☐ **C.** A Sprint Goal verifies that all the tasks in the Sprint are completed.
- ☐ **D.** A Sprint Goal offers a unified direction, encouraging teamwork and dedication.

Question 17

Choose 1 answer

Which statement is accurate about the Product Owner's role in "Sprint 0" in Scrum?
(choose the best answer)

- ☐ **B.** To forecast the outcomes for the upcoming Sprints.
- ☐ **C.** To give the Product Owner grounds to critique the team if they fall short of their set velocity.
- ☐ **D.** To gauge the team's efficiency over a period.

Question 20

Choose 1 answer

What is the most effective strategy for Scrum Teams to deliver valuable outcomes through Increments? (choose the best answer)

- ☐ **A.** Every Developer focuses on areas where they believe they can offer the most input.
- ☐ **B.** Every Scrum Team is accountable for crafting a feature from its inception to its completion.
- ☐ **C.** Each Scrum Team concentrates solely on a distinct group of components.
- ☐ **D.** Every member of the Scrum Team dedicates themselves exclusively to one particular system layer.

Question 21

Choose 2 answers

When is it appropriate to refine the Product Backlog, and which members should be involved? (choose the best two answers)

- ☐ **A.** Throughout the development process, the Scrum Team collaboratively breaks down and clarifies Product Backlog items for better clarity and readiness.
- ☐ **B.** If, during the ongoing Sprint, the Scrum Team finds they haven't adequately defined certain items from previous Sprints, they should refine them.
- ☐ **C.** At the conclusion of a Sprint, the Product Owner should allocate time before the next Sprint starts to finalize refinements.
- ☐ **D.** Organization's domain experts should handle the refinement for the team, usually a couple of Sprints in advance.
- ☐ **E.** During Sprint 0.

Question 22

Choose 2 answers

In the midst of Sprint Planning, the Developers note that the amount of work might surpass their ability to finish it. What are two suitable responses?
(choose the best two answers)

- ☐ **A.** Adjust the Product Backlog items selected or modify their acceptance criteria.
- ☐ **B.** The Developers should commit to extended hours for this particular Sprint.
- ☐ **C.** Extend the Sprint timebox.
- ☐ **D.** The Developers inform the Scrum Team about the potential overload, initiate the Sprint, and consistently review the progress.
- ☐ **E.** Swiftly onboard new Developers to tackle the excess workload.

Question 23

Choose 1 answer

In the context of formulating the Sprint Goal, what is the responsibility of the Product Owner? (choose the best answer)

- ☐ **A.** The Product Owner collaborates solely with stakeholders to determine the objective for each Sprint.
- ☐ **B.** The Sprint Goal is not the accountability of the Product Owner; only the Developers shape it.
- ☐ **C.** Before entering Sprint Planning, the Product Owner is obligated to have a pre-documented Sprint Goal.
- ☐ **D.** The Product Owner alone establishes the Sprint's scope, which subsequently determines its goal.
- ☐ **E.** The Product Owner enters Sprint Planning with a desired business outcome and collaboratively works with the Developers to devise the Sprint Goal.
